

Come and join us!

Admissions

The general criteria for admission are:

The student:

- has a non-Dutch nationality or is a foreign passport holder and one of the parents/legal guardians is employed in The Netherlands;
- or has a Dutch nationality and has lived and attended school abroad for at least two years as one of the parents/legal guardians was stationed abroad;
- or has a Dutch nationality and has a parent/legal guardian (with whom the student will be living) who will be stationed abroad within two years.

The MYP school programme should be designed to fit with the student's needs and the student should benefit from the programme.

Starting August 2023, we start with the first year of the IB Diploma Programme.

School Fees

The current school fees and Standard Terms & Conditions can be found on our website:

www.internationalschooldelft.com/fees

Delft Community

We are fortunate to be located in the community of Delft. We aim to be a link between the international and local communities, supported by our mother school, Stanislacollege.

This link allows for integration of our students into the local community through participation in cultural activities and sports.

Dutch International Schools Network

Our school is a member of the association of Dutch International Schools, a network for professional and qualitative development of state-subsidized international schools in The Netherlands.

INTERNATIONAL BACCALAUREATE

Inspiring Learning
for a Sustainable Future

Inspiring Learning
for a Sustainable Future

Welcome!

Welcome to our international community school in the beautiful city of Delft. We are a small international school with a tight-knitted community. Our vision is to be an inclusive community that embraces authentic, inquiry-based learning to create compassionate, internationally-minded individuals who strive to make a positive and peaceful change in the world.

International School Delft Secondary opened in 2019 and is centrally located in the beautiful historic town of Delft. The secondary school currently makes use of two campuses. The school will move to a new building near to the Delft University campus in 2025. The design and development of this building is well underway. The building will provide excellent facilities for an International Baccalaureate education and reflects our mission and vision.

We look forward to welcoming you to our school on our Open day or for a (virtual) tour.

Minke Veeneklaas
Head of Secondary

I was welcomed
into this school with
open arms like no
other school I have
been to

International Baccalaureate

International School Delft is an authorized IB world school, offering the IB Primary Years Programme at Primary and the Middle Years Programme and Diploma Programme at Secondary school.

IB World Schools share a common philosophy - a commitment to high - quality, challenging, international education. The IB programme also encourages students to think critically and independently, while motivating them how to inquire logically and carefully.

More information about the IB: www.ibo.org

The Future is Yours!

The Middle Years Programme (MYP)

At International School Delft students will follow, together with a diverse group of international students, the high-quality Middle Years Programme of the International Baccalaureate. The MYP programme is challenging and flexible and will equip students with the skills that are needed for a successful future. The MYP programme specifically, encourages students to become active, compassionate and lifelong learners with a global mindset.

Approaches to Learning and IB Learner Profile

A real strength of the MYP is the emphasis placed upon Approaches To Learning (ATL). Students will be supported to improve themselves at finding and evaluating information and organizing school work. In the MYP classes students will work on developing essential skills in technology, collaboration and communication.

The following ATL skill categories are practiced in all MYP subjects in a way that is relevant in each subject and discipline: communication, self-management, thinking, social skills and research.

Central to the IB programmes is the Learner Profile, which includes ten positive characteristics that will support students in being successful both during and beyond their school careers.

Innovation, Design & Technology

ISD has a close connection with Delft University of Technology. As a result of this partnership, students will get the opportunity to work on a variety of joint projects, often focused on Design Thinking. Design and technology are very important at ISD. In addition to the usage of lesson books, the MacBook is used as a key learning tool. Laptops are used for online lesson work, projects, assignments and research. At ISD, students are supported to develop the digital skills that are necessary for successful learning in the 21st century.

What makes ISD special?

As a smaller school, we offer a friendly community where new students feel welcome and find it easy to make new friends.

At ISD you'll find:

- Tight-knit, culturally diverse community
- Focus on Design & Innovation
- Future - oriented learning
- Diverse After School Programme
- Supportive international staff
- Centrally located
- Affordable school fees
